

FullCourt[®] System Update

New Features

NONE

Changes

1). FCT-1551 – Enhancements for Batch e-Filing

In the deposit entry window, the entire line will appear in red for a receipt created through batch e-Filing. Additionally, the Batch e-Filings report is now accessed from the Financial sub-menu of the Reports menu. (Shawnee County)

2). FCT-1569 – Included FullCourt User in Message to DMS Service When Document is Indexed

In Shawnee County, when a document is indexed into the Shawnee DMS system, the logged-in FullCourt user's ID is now sent together with the document and other data.

3). FCT-1574 – Added Support for OnBase Upgrade

The Justice Systems e-Filing service has been upgraded to support interaction with the OnBase document management system using a web service written for Douglas County rather than the Hyland Services API.

Customer Issues

1). FCT-1506 – Changes Made for Windows 8.x Compatibility

Compatibility issues when running FullCourt in Windows 8.x environments have been resolved.

2). FCT-1550 – Agency Setup: Error Message Appearing when Trying to Add a New Officer

When adding a new officer to the agency staff setup table, sometimes, depending on setup, a message box would display. The message box will no longer appear when adding new officers.

3). FCT-1553 – Financials: Disbursement is Allowed to be Voided before Associated Check is Voided

When a manual check is created without a disbursement being created first and then the check is reprinted, the application will now stop the voiding of the disbursement until the reprinted check is voided first.

4). FCT-1557 – Error in Validation of Violation and Appearance Dates During Citation Import Processing

Violation and Appearance dates are now processed properly in citation import processing.

- 5). FCT-1559 – Citation Import: Charges are being Combined into One Case**
Imported citations cases are now created with only one citation per case when the violation date and time are different.
- 6). FCT-1563 – Hearing by Party Window Remains Active for Subsequent Searches**
A user can now do subsequent searches in the Hearings by Party Window by clicking the New Party button after a previous search.
- 7). FCT-1564 – Adding Officer Email Addresses in FullCase Causing Duplicates in FullCourt**
Updating officers in FullCase will no longer cause duplicates to be created in FullCourt.
- 8). FCT-1578 – Have to Use Default Case when Batch Indexing**
The case for each image can now be specified when batch indexing.
- 9). FCT-1584 – No Efile Access Checkbox Not Working**
In the previous release, courts that used third-party imaging systems and e-filing did not see the "No E-File Access" checkbox on the ROA window. That has been fixed.
- 10). FCT-1586 – Supervision Options not in Sequence Order on Sentencing Option Window**
Supervision options on the Other Sentencing window are now listed in sequential order.
- 11. FCT-1558 – Paid Amounts Wrong on Victim Restitution Redistribution Window When a Receipt is Partially Moved**
Partial moves of victim restitution receipts are now accounted for accurately in the redistribution window. Also the change line wording has been revised to be more descriptive.
