

Subcommittees

The Steering Committee has identified several areas, which may need additional improvements, and areas in which we want to build on for the future. Subcommittees were formed to address these topics and make recommendations to the Steering Committee.

Below is a list of those subcommittees and the Steering Committee member assigned to chair the subcommittee. Scheduled meeting times will be posted as available. Court personnel is welcome to bring issues, concerns or recommendations to the attention of the Steering Committee or a related Subcommittee.
