Judicial Administrator

Re: Judicial Caseload Report – FY 2006

Judicial caseload can be analyzed in a variety of ways. The first section of this report covers case filings in the district courts on a statewide basis as well as by individual judicial districts for the period of FY 1997 through FY 2006. Historical information is based on final figures published in the *Annual Report of the Courts of Kansas*, FY 1997 through FY 2006. The second section groups districts according to judicial staffing patterns: districts with only district judges and districts with both district and magistrate judges.

Section one provides detailed information regarding the number of case filings in each category while section two ranks districts according to judge caseload in the categories listed below:

1. All case filings divided by total judges.
2. All case filings, except traffic, divided by total judges.
3. Civil and criminal case filings divided by total judges.
4. Regular Actions, Domestic Relations, and Felony case filings divided by the number of district judges.

Please call the Statistical Reporting Section, (785) 296-4853, if you have any questions regarding this report.
